

Variable Power Source

VPS 250-16

IEC/EN 61000-4-11

Motor-driven variable transformer, controlled by CE-TESTER, used for power supply variation acc. to IEC/EN 61000-4-11

Technical specification:

VPS 250-16

variable transformer:	output voltage, adjustable	0 - 250 V
	nominal current	16 A
	control analogue by interface of CE-TESTER
